INFORMATION REGARDING LONG DISTANCE CALLS

TYPES OF CALLS

There are two general types of calls, Station-to-Station and Person-to-Person.

STATION-TO-STATION CALLS. On this type of call you are connected with a distant telephone or private switchboard and timing is started on the call when *anyone* at the called telephone location answers. Station-to-Station calls are handled more rapidly and, consequently, at lower rates than Person-to-Person calls.

PERSON-TO-PERSON CALLS. On this type of call you are connected with a particular person or with a particular telephone or department reached through a private switchboard. Although the rates are higher than for Station-to-Station calls, the timing does not begin until you reach the person, station or department you designated when placing the call.

PLACING THE CALL

Your call can be completed more promptly if you know the phone number in the distant city. There is space on Page 1 the numbers you frequently call.

g a call, do y your own telephone number to Many long distance calls are Therefore, it is important to lk when the called party an-

e charge on your call, notify r the call is completed, she

HOW TO PLACE STATION-TO-STATION CALLS

If you know the number, say "Cincinnati, Ohio, Main 1234."

If you do not know the number, say "Cincinnati, Ohio, *anyone* at Brown & Co., 600 Main Street."

HOW TO PLACE PERSON-TO-PERSON CALLS

If you know the number, say "Cincinnati, Ohio, Main 1234, Mr. John Brown (or, extension 345, or, the Treasurer's Office)."

If you do not know the number, say "Cincinnati, Ohio, Mr. John Brown (or the Treasurer's Office) at Brown & Co., 600 Main Street."

NIGHT AND SUNDAY CALLS

Reduced rates are in effect every night from 6:00 P.M. to 4:30 A.M. and all day Sunday for Station-to-Station calls having an initial period day rate in excess of 35 cents and for Person-to-Person calls having an initial period day rate in excess of 60 cents.

COLLECT CALLS

On a Collect Call the charge is billed to the distant telephone. There is no extra charge for this service when the initial period rate exceeds 20 cents. Notify the Long Distance Operator when placing the call that it is a "Collect Call."

Continued on next page

INFORMATION REGARDING LONG DISTANCE CALLS

Continued from preceding page

MESSENGER CALLS

When you desire to talk to someone who does not have a telephone, the Long Distance Operator will arrange to send a messenger to call your party to the nearest available telephone. Person-to-Person rates plus the actual charges for the messenger apply to this service.

APPOINTMENT CALLS

The Long Distance Operator will arrange for you to talk to a distant party at a specified time, if you so desire. Person-to-Person rates apply to this service.

CONFERENCE CALLS

You can talk from your telephone simultaneously to a number of long distance points. You need no special equipment—just call Long Distance, ask for the Conference Operator and give her the details of your call. This service is inexpensive.

OVERSEAS CALLS

Information on the availability of telephone service to overseas points and the rates applicable thereto may be obtained from the Long Distance Operator.

Some typical week-day rates for a three-minute call are: To Argentina, Australia, Denmark, Italy, the United Kingdom, the U.S.S.R. and Venezuela, $12.00; to Colombia and Hawaii, $9.00; to Bermuda, Puerto Rico and Virgin Islands, $7.50; and to Bahamas, $6.75. Reduced rates apply on calls to many countries during certain night hours and on Sunday.

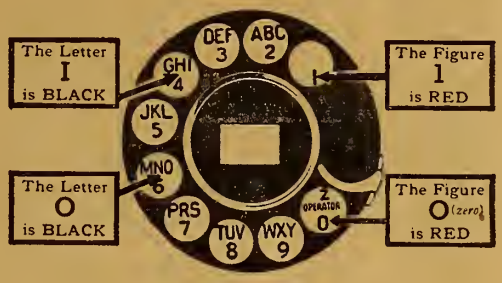
DIALING INSTRUCTIONS

OBTAIN THE CORRECT NUMBER FROM THE DIRECTORY

If the telephone number you wish is not in this directory, call INFORMATION for it as instructed on Page 1 under "Telephone Service Calls."

LISTEN FOR THE DIAL TONE

The dial tone is a steady humming sound. **Do not start to dial until you hear it.** It indicates the equipment is ready to receive your call. If you do not hear it, hang up and try again a little later.



DIAL THE NUMBER

With the receiver removed, place your finger in the dial opening over the desired letter, or figure, and turn the dial to the finger stop. Release it quickly. Do not touch the dial as it returns to its normal position. If you make a mistake, hang up, and then try again in a few moments.

TOLEDO EXCHANGE SUBSCRIBERS

To call a number in Toledo dial the first two letters of the central office name and then each figure of the number. Telephone numbers may have 4 or 5 figures; all the figures should be dialed.

ALL OTHER EXCHANGE SUBSCRIBERS

To call a number in your Exchange dial only the figures of the number.

To call a number in other Exchanges—See Page 2 under CALLS BETWEEN EXCHANGES.

Letters are in black on the dial—figures are in red. Do not confuse them.

AFTER YOU DIAL

A few seconds after you have finished dialing, the ringing signal (a soft bur-r-r), the busy signal (a rapid buzz-buzz) or the no-such number signal, a siren-like sound, will be heard. The ringing signal means wait for your party to answer. The busy signal means hang up and try again later. The siren-like sound means that you have dialed a non-existent number. If none of these is heard, hang up, verify the number you are calling and dial again. If several attempts fail, dial the operator and explain the circumstances to her. She will assist you.

WHEN THROUGH TALKING

Replace your receiver so that your line will be available for making or receiving other calls. If you have an extension telephone, be certain that the receivers of both telephones are in place. Otherwise your line will be out of order.

TO DIAL "OPERATOR"

Place your finger in the last dial opening, over the word "OPERATOR," and turn the dial to the finger stop, then release it.

FOR PARTY LINE AND EXTENSION USERS

When someone else is using your party line or extension telephone, you will hear dialing clicks, or the ringing signal, or voices. If you hear dialing clicks, lifting your receiver has interfered with someone's dialing and you should inform him of it as soon as he finishes.

If you hear another party lift his receiver while you are dialing, inform him that the line is in use. After he has replaced his receiver, replace your own for a few seconds. Then dial the complete number again.

TO CALL A PARTY ON YOUR LINE

TOLEDO TWO AND FOUR PARTY SUBSCRIBERS

Dial the Operator and give her the number you want, stating that it is a party on your line. The operator will handle the call, or tell you how to dial the number direct.

TOLEDO RURAL and HOLLAND, MAUMEE, PERRYSBURG and WHITEHOUSE TWO AND FOUR PARTY SUBSCRIBERS

Dial the desired number in the regular way. When you hear the busy signal, hang up your receiver. Your telephone and the one you are calling will start ringing. When the called party answers, your telephone will stop ringing; then lift your receiver and start conversation. If the called party does not answer, lift your receiver to release the connection (which will stop the ringing) and then replace your receiver.

CURTICE PARTY LINE SUBSCRIBERS

Telephones having the first four digits of their number alike are on the same line.

To call a party on your own line, the number to dial is different than the one listed for that party.

Any subscriber on any party line may reach any other party on that line by first dialing "8," then the last figure of your own number and the last figure in the number of the party wanted, then hang up your receiver. When your telephone stops ringing, the party called has answered. Remove your receiver and talk. If the party called does not answer, you may stop your telephone ringing by lifting the receiver for a second.

CALLING FROM COIN TELEPHONES

Follow the instructions on the coin telephone you are usir

HELPFUL INFORMATION

BUSINESS OFFICE SERVICE

If you wish to apply for service, move or disconnect a telephone, discuss a bill, arrange for a directory listing, or if you desire any information regarding other telephone matters, our Service Representative in the Business Office, 121 Huron St., telephone MAin 9921, will be pleased to give you personal attention. Whether you call by telephone or in person, you will find her anxious to help you with any questions you may have about your bill or your service.

THE YELLOW PAGES

The Yellow Pages show the name of every business subscriber listed under a heading descriptive of his business. Thus, hundreds of commodities and services are at the command of your telephone, so you can buy by telephone and save time.

PARTY LINE COURTESY PAYS

When several persons are sharing the use of a telephone line, consideration and courtesy are important to all. Everyone gets better service if each party observes these simple rules: Be brief as possible . . . space your calls so the other party can get in his call . . . and give up the line for emergency calls.

REGULATIONS AND TARIFFS

Tariffs showing the legal rates and regulations for exchange service as filed with the Public Utilities Commission of Ohio are available for public inspection at the Business Office.

TELEPHONE TOURS

You are cordially invited to visit any one of the telephone exchange buildings. A trained guide will show you how your service is furnished. If you are making arrangements for a group please give advance notice to our Business Office.

DIRECTORY ACCURACY

The Company does not assume liability for errors or omissions in this directory.

Please check your listing and let us know if it is not correct or should be changed.

OUT-OF-TOWN DIRECTORIES

Directories of other cities may be obtained at nominal cost. The Business Office will be glad to order any you may desire.

ADDRESS TELEPHONE DIRECTORY

A directory arranged by the addresses of customers is available for business customers at $3.25 per month. It contains the listings of customers in Toledo and vicinity.

For further information concerning this directory call or write The Ohio Bell Telephone Company, MAin 9921, at 121 Huron St., Toledo 1, Ohio.

LECTURE-DEMONSTRATIONS AND TELEPHONE MOTION PICTURES

Capable speakers and entertaining and informative sound motion pictures on telephone subjects are available, free of charge, for most any type of audience, such as: School-College, Fraternal, Church, Business, Parent-Teacher, Trade, Professional, Rural, Women's Groups and Civic and Service Clubs.

The talks are non-technical and generally include interesting demonstrations.

For full information just call or visit the Business Office.

"BEEP" TONE ON RECORDED CONVERSATIONS

A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the telephone company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. Use of a recorder without this signal is unlawful.

MOBILE TELEPHONE SERVICE

Mobile Telephone Service provides a means of communication between suitably equipped vehicles, such as automobiles, trucks, and boats operating within Mobile Service areas and any telephone reached by the Bell System.

Each mobile telephone has its own number. To place a Mobile Telephone call, ask Long Distance for Mobile Service Operator. For information on how this service will help your business, call the Business Office MAin 9921.

EMPLOYEE IDENTIFICATION CARDS

For your protection, telephone employees who regularly visit the public carry identification cards. Each card shows the employee's name and signature, and is countersigned by a department manager. If you have the slightest doubt about anyone who represents himself as being "from the Telephone Company," ask to see his identification card.
